

2023 CALENDAR

Technology safety training for SADFV practitioners, by practitioners using a domestic and family violence lens.

Smart Home Tech*

This webinar will discuss how smart home technology can be both useful in keeping women and children impacted by DFV safe in their home and misused to abuse. We'll discuss tactics to ensure smart devices and the data they collect are kept secure and private. We'll also cover important considerations when determining whether certain technologies might benefit a victim-survivor's situation, or potentially create a greater risk.

Date: Wednesday, 01 February 2023
Time: 12:30 pm ADST (9:00 am WA)
Duration: One hour
Format: Online

Cost for members: \$68 per person, including GST
Cost for non-members: \$85 per person, including GST

Supporting Survivors at a Distance*

During a public health crisis frontline services depend upon digital tools to communicate with and deliver services to vulnerable clients. In this one-hour webinar, we'll provide best practices for agencies in using technology to support victim-survivors throughout such times. We will also cover remote working considerations and discuss use.

Date: Tuesday, 14 February 2023
Time: 12:30 pm ADST (9:00 am WA)
Duration: One hour
Format: Online

Cost for members: \$68 per person, including GST
Cost for non-members: \$85 per person, including GST

Children, Young People & Tech Abuse*

This training goes beyond the basics and explores the ways in which abusers use young people's technology as a part of domestic and family violence and practical ways frontline workers and advocates can support their clients to respond to this risk. Particular attention will be given to court-ordered contact, tech gifts, and social media.

Date: Wednesday, 01 March 2023
Time: 12:30 pm ADST (9:00 am WA)
Duration: One hour
Format: Online

Cost for members: \$68 per person, including GST
Cost for non-members: \$85 per person, including GST

Understanding Stalkerware*

This webinar provides an overview of stalkerware and how it is currently deployed in DFV on computers and mobile devices. Participants will learn how to potentially distinguish whether stalkerware or other forms of technology are being used, common forms of stalkerware and the possibilities and limitations of each, as well as practical steps and advice in relation to assisting victim-survivors with risk and safety planning around stalkerware.

Date: Wednesday, 15 March 2023
Time: 12:30 pm ADST (9:00 am WA)
Duration: 90 minutes
Format: Online

Cost for members: \$68 per person, including GST
Cost for non-members: \$85 per person, including GST

Social Media and Survivors*

This webinar covers the most common social media platforms used by Australians. We will discuss how DFV perpetrators commonly misuse social media and what can be done to support victim-survivors. We'll also look at the data these platforms collect, store and share, and cover how victim-survivors can maximise the built-in privacy and security settings, use the abuse-reporting features and potentially document abuse.

Date: Tuesday, 28 March 2023
Time: 12:30 pm ADST (9:00 am WA)
Duration: One hour
Format: Online

Cost for members: \$68 per person, including GST
Cost for non-members: \$85 per person, including GST

Location, Location, Location

This webinar covers the ways in which victim-survivors may be located, monitored, and surveilled through technology by abusers. Attendees will learn how this type of abuse can occur, the most commonly and complex tactics used by abusers, how to identify the technology being used, where to look for evidence, what to do about it, and how to protect against the likelihood of it occurring.

Date: Wednesday, 17 May 2023
Time: 12:30 pm ADST (9:00 am WA)
Duration: One hour
Format: Online

Cost for members: \$68 per person, including GST
Cost for non-members: \$85 per person, including GST

Personal Safety App Review

In recent years, a plethora of Personal Safety Apps has been developed specifically for victims of domestic violence, sexual assault, and stalking. WESNET, in partnership with Monash University and WSU, were funded by ACCAN to test these apps, and our findings are summarised in this webinar so that victim-survivors and the frontline workers who support them can confidently choose one that works best for them.

Date: Thursday, 01 June 2023
Time: 12:30 pm ADST (9:00 am WA)
Duration: One hour
Format: Online

Cost for members: \$68 per person, including GST
Cost for non-members: \$85 per person, including GST

Registration Information:

- To register visit our website: techsafety.org.au/training/ or contact us at techsafety@wesnet.org.au
- Participants will receive a Zoom link via email once payment is received.
- For Members: to receive the 20% discount please contact us at membership@wesnet.org.au
- WESNET members' registration will be prioritised.
- WESNET is committed to accessibility. If you have any special needs please let us know at safeconnections@wesnet.org.au
- Check techsafety.org.au/training/ for the latest training and dates.

*These webinar sessions are for practitioners only and are suitable for SADFV practitioners and professionals who regularly support victim-survivors of DFV who want a better understanding of how technology is misused in DFV situations.
